PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience in building scalable web applications using React.js and Node.js. Skilled in frontend development, backend API creation, and integration. Experienced in end-to-end testing using Cypress and implementing CI/CD pipelines for reliable deployments. Currently working on live production applications with a focus on performance, usability, and clean architecture.

WORK EXPERIENCE

SOFTWARE ENGINEER

 Mar 2024 – Present

MayimDazzle India Private Limited

- Engineered scalable and high-performance web applications using **React.js**, improving user experience and responsiveness
- Designed and developed robust **RESTful APIs** using **Node.js (Express.js)**, ensuring secure and efficient data handling
- Architected seamless integration between frontend and backend systems, enabling reliable and optimized data flow
- Managed relational database operations using **MySQL**, including query optimization and schema design
Implemented **end-to-end testing** using **Cypress**, increasing application reliability and reducing production defects
- Contributed to **CI/CD pipelines** (build, test, deploy), enabling faster and more reliable release cycles
- Followed **clean code practices**, modular architecture, and version control using Git for maintainability and scalability
- Actively participated in **Agile/Scrum processes**, including sprint planning, stand-ups, and code reviews

EDUCATION

Master in Computer Application (MCA)

- University of Madras (Distance)
- Completed: 2025 | CGPA: 7.98

TECHNICAL SKILLS

- Programming Languages

Java, JavaScript

- Backend

Node.js, REST API Development

- Java Technologies

JDBC, Servlets, Hibernate, Spring (IOC, MVC, Spring Boot, Spring Data JPA)

- DATABASE

MySQL (DDL, DML, Joins, Subqueries)

- HIBERNTE

Good knowledge in relationship like Many to Many, One to Many, @annotha on creating a new relationship

- Tools & Technologies:

Git & GitHub | Postman | swagger | Eclipse | VS Code | Spring Tool suite | MySQL | Devtools.

COURSE COMPLETION

- Java Full Stack Development

JUL2023-MAR2024

- Completed Google IT Support (Coursera)

PROJECT

Veterinary Management System

Define endpoints for managing hospital entities such as admin, user, vaccine order and medicine items. implement validation for input fields. Handle exceptions gracefully with a custom Exception handler returning appropriate error response. Developed: React | Node | Mui | Miles

E- Commerce Management System

The J2EE product seller project is an end-to end e-commerce solution that allows businesses to showcase and sell their products online. Sellers can add, update, and delete product details, including images, Descriptions, and prices. products comprehensive Developed: Java | SQL | JSP | CSS | JDBC | Session| Servlet

BRICKBREAKERGAME

The Game is used to designed to facilitate fun to players Utilizing HTML5 for structure, CSS for styling, and Bootstrap for enhanced responsiveness. Developed: JAVA|HTML5|CSS3
